

50×63mm Cast Stainless Steel Heavy Duty Hinge |
Asymmetrical Countersunk Door Hinge for Outdoor
Enclosures - ML2-JL1011-2

2025-09-19

The ML2-JL1011-2 hinge is a precision-cast stainless steel hinge with a substantial thickness of 6mm, designed for heavy-duty industrial applications. Featuring a left-right asymmetrical structure and countersunk screw holes, this hinge ensures both structural integrity and a flush, secure installation.
