

Heavy Duty Detachable Barrel Hinge - Carbon Steel ML2-089

2025-09-26

This heavy-duty detachable barrel hinge is engineered for industrial applications requiring reliable load-bearing performance and easy maintenance. Manufactured from standard carbon steel, this hinge is designed with a removable pin mechanism that incorporates a 316 stainless steel ball, ensuring smooth rotational movement and secure engagement.

model	ML2-089
material	Carbon steel (other materials can be customized)
load-capacity-per-piece	Up to 220 kg
